C-4 AIRCRAFT MANAGEMENT

Questions

Type	#	Topic/Detailed Question	How to verify compliance	Discpreancy Write up	How to Clear
CI	01	Has the Wing/Region published a supplement to CAPR 130-2? a) Was the supplement to CAPR 130-2 updated at least annual? b) Was it approved per the regulation prior to implementation?	Compliance is determined by comparing the Wing's/Region's published supplements/OIs with CAP/DA records located in https://www.gocivilairpatrol.commembers/publications/approveds upplementsand-ois-by-region/. NOTE: If supplement is not marked correctly, see D-4 question 1.		all) attach a copy of the approved Supplement to the discrepancy in the Discrepancy Tracking System (DTS).
CI	02	a) Does the Wing/Region AMO or their representative inspect each corporate aircraft within the proceeding 365 days,b) Was the CAPF 71 or CAPF 71G uploaded to AMRAD?	Compliance is determined by running the AMRAD CAPF 71 report for all assigned aircraft for the wing/region.	(Discrepancy): [xx] (C4 Question 02 a) Wing/Region failed to provide evidence of having completed a CAPF 71 or CAPF 71G inspection of all wing/region aircraft within the proceeding 365 days, IAW CAPR 130-2 para 10.4.6. (Discrepancy): [xx] (C4 Question 02 b) Wing/Region failed to provide evidence of uploading to AMRAD the completed CAPF 71 or CAPF 71G	AMRAD) of the completed CAPF 71 or CAPF 71G to the discrepancy in the Discrepancy Tracking System

Does the Wing/Region utilize 03 the AMRAD System located in eServices to record all aircraft inspections, discrepancies and time change items IAW CAP regulations?

- a) Are engine TBO times, TTAF and Tach changed and due times, date changed and date due recorded in AMRAD? b) Are propeller TBO times, TTAF and Tach changed and due times, date changed and date due recorded in AMRAD?
- c) Are propeller governor TBO times, TTAF and Tach changed and due times, date changed and date due recorded in AMRAD?
- d) Are the Left & Right Magneto Inspections TTAF, Tach times and dates completed and due recorded and not overdue in AMRAD and logbooks?
- e) Do TTAF and TACH time in AMRAD match WMIRS & logbook?
- f) Does Annual Inspection completed date in AMRAD matches logbook and is next Annual due date correctly entered in AMRAD?
- g) Does 100hr Inspection completed date, TACH and TTAF times in AMRAD matches logbook and are the

Verification based on a review of (Discrepancy): [xx] (C4 Question aircraft discrepancies. inspections and time change items in AMRAD when compared to CAPFs 71 and logbooks.a. Compare AMRAD report with aircraft engine and airframe logbooks. A to F. Compare AMRAD report with aircraft engine and airframe logbooks. G. Compare AMRAD report with airframe logbooks and calculate the next 100hr Inspection Date. H. Compare date in AMRAD to the most recent wash date in the airframe logbook. I. Verify all 100hr inspections since the previous Compliance Inspection were also recorded in the

airframe logbook as Annual

Inspections.

03) Wing/Region failed to utilize AMRAD located in eServices IAW CAPR 130-2 para 7.5.

A to H Attach to the DTS response a copy of the updated AMRAD report and pictures of the relevant logbook pages. I. Attach to the DTS response a copy of the relevant logbook pages.

CI

next 100hr due Tach and TTAF times correctly entered in AMRAD? h) Is Aircraft wash date recorded and is it current? i) Have all 100hr Inspections since last CI been signed off in the logbooks as Annual Inspections per CAPR 130 - 2 para 10.2?

Does the Wing/Region keep CI a current certificate of insurance identifying the liability insurance coverage for all facilities performing maintenance on wing/region

assigned aircraft?

Run the AMRAD Maintenance Facility Insurance Report for the wing/region. Compare this to the maintenance shops used in the wing/region

(Discrepancy): [xx] (C4 Question 04) Wing/Region failed to keep a current Certificates of Insurance for all of the maintenance facilities the discrepancy in the performing maintenance on wing/ region aircraft IAW CAPR 130-2 para 16.

NOTE: List all of the facilities with missing Certificates of Insurance.

Attach a screenshot (from AMRAD) of the missing Certificates of Insurance to Discrepancy Tracking System (DTS).

Is CAP aircraft documentation 05 maintained IAW applicable

CI

- 14CFRs and CAP regulations? a) Is required scheduled maintenance on assigned aircraft accomplished?
- made for the 100 hour/annual inspection made, ADs and/or assigned aircraft accomplished? c) Are inspection certification of its pitotstatic, transponder, and altimeter systems accomplished as required and documented in the logbooks?
- d) Are ELT batteries replaced before exceeding the replacement date specified by the battery manufacturer? e) Is the weight and balance (W&B) forms accurate in the POH? Do all other W&Bs in the AIF, Log Book, and any Wing/Region pilot aids match?
- f) Was the corrosion control accomplished? g) Are FAA Form(s) 337, Major Repair and Alteration (Airframe, Power plant, Propeller, or Appliance) documented in the maintenance logs?
- h) Are logbook entries accurate and mid -cycle oil change completed?

(all) Determined during aircraft inspection using inspection checklist, NOTE: use 14CFR 91.213 and Aircraft AFM/POH to determine required equipment. If an aircraft needs to be b) Are required logbook entries grounded inspector will follow CAPR 130-2 and 70-1 requirements for grounding the Mandatory Service Bulletins on aircraft, placing the red placard in the aircraft and completing the AMRAD Discrepancy entry. n) Determined by contacting CAP/LGM and obtaining a list of software that was issued to the Mandatory Service Bulletins as aircraft.

(Discrepancy): [xx] (C4 Question 05a) Wing/Region failed to ensure required scheduled maintenance on assigned aircraft was accomplished IAW CAPR 130-2 para 10. (Use bullet points to explain what maintenance was not b) Attach a copy of the done.)

(Discrepancy): [xx] (C4 Question 5b) Wing/Region failed to ensure required logbook entries for the 100 hour/annual inspection done in 20 on N reflected (AD compliance check) (and/or) listed on CAP website were accomplished during inspection IAW CAPR 130-2 para 10

(Discrepancy): [xx] (C4 Question 5c) N exceeded 24 months between inspection for and certification of its pitot -static, transponder, and altimeter systems IAW CAPR 130 -2 para 10.4 and 14 CFR 91.411 and 14 CFR 91.413. - List the dates between each inspection -(Discrepancy): [xx] (C4 Question 5d) The ELT battery on N had not been replaced prior to exceeding the replacement date specified by the battery manufacturer (and the aircraft flew with the expired battery) IAW CAPR 130 -2 para 10.4.4. -

- a) Attach a copy of the completed maintenance logbook entry to the discrepancy in the discrepancy Tracking System (DTS).
- completed 100hr/Annual logbook entry to the discrepancy in the Discrepancy Tracking System (DTS).
- c) Attach a copy of the completed pitot-static, transponder, and altimeter systems certification logbook entries to the discrepancy in the Discrepancy Tracking System (DTS).
- d) Attach a copy of the ELT battery replacement logbook entry to the discrepancy in the Discrepancy Tracking System (DTS).
- e) Attach a copy of the updated W&B documents to the discrepancy in the Discrepancy Tracking System (DTS).
- f) Attach a copy of the corrosion control application logbook entry to the discrepancy in the Discrepancy Tracking System (DTS).
- g) Attach a copy of the completed FAA 337(s) and the associated logbook entries

- i) Are required logbook entries made for the ELT transmitter check as within the last 12 months as required per FAR 91? j) Are required logbook entries made for each aircraft modifications (mounts, tail strike plate etc.) and is NHQ approval documented for each modification?
- k) Does the aircraft have a complete set of logbooks?
- 1) Are logbooks stored in the aircraft?
- m) Are logbooks stored in a manner that ensures they are safe, secure, and free from damage, loss or theft?
- n) Is all aircraft software present and in good operating condition?

(Discrepancy): [xx] (C4 Question 5e) Wing/Region failed to ensure the weight and balance forms were accurate in the POH, AIF, Log Book and any Wing/Region pilot aids IAW CAPR 130 -2 para 7 and 14CFR 23.1583. - List the POH, Log Book and AIF weight and balance dates, weights and moments.

(Discrepancy): [xx] (C4 Question

- 5f) Wing/Region failed to ensure corrosion control was accomplished on N IAW CAPR 130 -2 para 10.4.5. (Discrepancy): [xx] (C4 Question 5g) Wing/Region failed to ensure that all FAA Form(s) 337, Major Repair and Alteration (Airframe, Power plant, Propeller, or Appliance) were documented in the maintenance logs for N for (describe the repair or alteration) IAW CAPR 130 -2. para 6.5 and 14CFR part 91-417. (Discrepancy): [xx] (C4 Question 5h) Wing/Region failed to ensure the (airframe) (engine) (propeller)
- 7.1.
 (Discrepancy): [xx] (C4 Question 5i) Wing/Region failed to ensure the (airframe) (engine) (propeller) logbooks for N____ had a logbook entry for the ELT transmitter check completed

logbooks for N____ had logbook entry for the mid -cycle oil change

completed on __/_/__ IAW

CAPR 130-2 para

- to the discrepancy in the Discrepancy Tracking System (DTS).
- h) Attach a copy of the completed mid-cycle oil change logbook entry to the discrepancy in the Discrepancy Tracking System (DTS).
- i) Attach a copy of the logbook entry for the completed ELT transmitter check completed within the last 12 months to the discrepancy in the Discrepancy Tracking System (DTS).
- j) Attach a copy of the logbook entry and CAP/LGM approval for the aircraft modification to the discrepancy in the Discrepancy Tracking System (DTS).
- k) Attach a photocopy of the front page of each logbook showing the aircraft has a complete set of logbooks to the discrepancy in the Discrepancy Tracking System DTS
- l) Attach a photo of the storage location with the logbooks for N_____ stored there to the discrepancy in the Discrepancy Tracking System (DTS).

within the last 12 Months IAW
CAPR 130 -2 para 10.4.4.
(Discrepancy): [xx] (C4 Question
5j) Wing/Region failed to ensure
the (airframe) (engine) (propeller)
logbooks for N had a
logbook entry for the
modification and/or no CAP/LGM
approval was available for this
modification (list each missing
modification as a separate
discrepancy) IAW CAPR 130 -2
para 17.
(Discrepancy): [xx] (C4 Question
5k) Wing/Region failed to ensure
that aircraft N has a complete
set of logbooks IAW CAPR 130 -
2 para 7.1.1.
(Discrepancy): [xx] (C4 Question
51) Wing/Region failed to ensure
that aircraft logbooks were not
stored in N IAW CAPR 130 -
2 para 7.1.2
(Discrepancy): [xx] (C4 Question
5m) Wing/Region failed to ensure
that the logbooks for aircraft
N were stored in a manner
that ensures they are safe, secure,
and free from damage, loss or
theft IAW CAPR 130-2 para 7.1.2.
(Discrepancy): [xx] (C4 Question
5n) Wing/Region failed to ensure
that all software issued to aircraft
N was kept secure, usable
and undamaged IAW CAPR 130-
2 para 5.10.

- m) Attach a photo of the storage location that shows the logbooks for N_____ are safe, secure, and protected from damage, loss or theft to the discrepancy in the Discrepancy Tracking System (DTS).
- n) Attach a photo of the receipt for replacement software and a photo of the replacement software that was identified as missing for N_____ to the discrepancy in the Discrepancy Tracking System (DTS).

Are CAP aircraft maintained 06 IAW applicable 14CFRs and CAP regulations?

CI

- a) Are required aircraft placards f) Determined during aircraft installed?
- b) Are required aircraft fire extinguishers serviceable/properly secured?
- c) Are required CO detectors correctly installed?
- d) Are survival kits installed?
- e) Are aircraft properly secured? be listed as a Discrepancy.
- f) Are aircraft tires properly inflated?

- (all) Determined during aircraft inspection using inspection checklist.
- inspection using inspection checklist.

NOTE: There are no regulatory tire pressure tolerances. If during the inspection an aircraft tire is found to not be in safe working order, then the discrepancy will

k) Review Logbooks and AMRAD discrepancy report for inoperative equipment. Verify that 14CFR 91.213 was complied with? If aircraft operation is not authorized, was inoperative equipment deactivated and placarded

"Inoperative."

- (Discrepancy): [xx] (C4 Question 06a) In Aircraft (N), wing/region failed to ensure that placards were installed IAW CAPR 130-2 para 15. - List by aircraft tail number the missing placards.
- (Discrepancy): [xx] (C4 Question 6b) In Aircraft (N), wing/region failed to ensure fire extinguisher was serviceable/properly secured IAW CAPR 130-2 para 14.2.
- (Discrepancy): [xx] (C4 Question 6c) In Aircraft (N), wing/region failed to ensure aircraft CO detector (select a statement from the following bullets) - had an installation date written on the detector IAW CAPR 130 -2 para 14.4 - was properly installed IAW CAPR 130 -2 para 14.4. The detector was
- installed in a plastic holder that prevented proper airflow preventing it to perform its designed function. - was current
- IAW CAPR 130 -2 para 1 4.4. It had a manufacturer's expiration date of / and was out of
- date. was replaced in January ____ IAW CAPR 130 -2 para 1 4.4. - was installed IAW CAPR
- 130 -2 para 1 4.4.
- (Discrepancy): [xx] (C4 Question 6d) Wing/Region failed to ensure
- that survival kits were installed in N____ IAW CAPR 130-2. 14.5

- a) Attach a photograph of all placards installed to the discrepancy in the Discrepancy Tracking System (DTS).
- b) Attach a copy of the logbook entry showing the fire extinguisher maintenance is current or properly secured to the discrepancy in the Discrepancy Tracking System (DTS).
- c) Attach a photograph of the properly installed and current CO detector to the discrepancy in the Discrepancy Tracking System (DTS)
- d) Attach a copy of a photograph of survival kits installed in the proper aircraft and/or a copy of the current expiration dates for all items installed to the discrepancy in the Discrepancy Tracking System (DTS).
- e) Attach a photograph of the affected aircraft with each item noted in the discrepancy properly secured to the discrepancy in the Discrepancy Tracking System (DTS).
- f) Attach a copy the closed out WOCN in AMRAD showing the tires were properly inflated and the aircraft was released for flight

Wing/Region failed to ensure that contents/expiration dates for wing/region mandated items were IAW with wing/region guidance. (Discrepancy): [xx] (C4 Question 6e) Prior to the inspection, wing/region failed to properly secure aircraft IAW CAPR 130-2 para 5.7. NOTE: List the following - N____ (and) N_ were not properly tied down with the wheels chocked. The pitot cover was not installed on (N) IAW CPAR 130-2, para 5.6 (and) (N____). - The control lock was not installed on (N) (and) (N) IAW CAPR 130-2, para 5.7. (Discrepancy): [xx] (C4 Question 6f) Wing/Region failed to ensure aircraft tires were in safe working order IAW Pilot Operating Handbook (POH) NOTE: List the following - List the aircraft and actual tire pressure verses specified the pressure. - Tire pressures in the Pilot Operating Handbook (POH) for Cessna 172 (N) do not match the amended STC SA2196CE for the 180 HP engine conversion which raised the maximum gross weight of the aircraft to 2550 pounds. (Discrepancy): [xx] (C4 Question 6g) Wing/Region failed to ensure aircraft external identification plate on aircraft (N) was properly secured to the aircraft fuselage exterior IAW CAPR 130-

- to the discrepancy in the Discrepancy Tracking System (DTS).
- g) Attach a photograph of the external identification plate properly secured to the aircraft to the discrepancy in the Discrepancy Tracking System (DTS).
- h) Attach a photograph of the correct items inserted in the AFM/POH for each item listed in the discrepancy to the discrepancy in the Discrepancy Tracking System (DTS).
- i) Attach a photograph showing the aircraft properly grounded and/or placarded, attach a copy of the logbook entry showing the items deactivated and/or grounded and attach a copy of the AMRAD entries reflecting each item listed in the discrepancy to the discrepancy in the Discrepancy Tracking System (DTS).

2 para 15.4 and 14CFR 45.11.

(Discrepancy): [xx] (C4 Question 6h) Wing/Region failed to ensure AFM/POH cover page/contents for aircraft was/were complete/accurate IAW FAA-H8083-25A para 8-2and 14 CFR 91.9. - List details NOTE: List each discrepancy separately. (Discrepancy): [xx] (C4 Question 6i) Wing/Region failed to ensure aircraft _____ was grounded IAW 14 CFR 91.213. or Wing/Region failed to ensure inoperative equipment was deactivated and placarded "Inoperative" IAW 14CFR 91.213. – List details.

Does the Wing/Region, AMO and all aircrew members fulfil all roles and responsibilities IAW CAPR 130-2, para 2.? a) Does the Wing/Region have a maintenance management program? b) Does the Wing/ Region have a comprehensive aircraft maintenance officer training plan based on CAPP 130-3, CAP Aircraft Does the Wing/Region ensure all AMOs are properly trained within 3 months of assignment? d) Does the Wing/ Region ensure all AMOs are enrolled and actively pursuing completion of the AMO Specialty Track if available? e) Does the Wing/Region ensure all aircrew members comply with all provisions of this regulation? f) Does the Wing/ Region ensure all aircrew members have completed AMRAD training for Pilot's and FRO/SFROs.

a) Wing/Region will provide their supplement to CAPR 130-2 that contains a maintenance management program specific to the Wing/Region that facilitates the full implementation of this regulation. b) Wing/Region will provide their comprehensive aircraft maintenance officer training plan based on CAPP 130-3, CAP Aircraft Maintenance Officer Guide? c) Maintenance Officer Guide. c) Wing/Region will provide evidence of AMO training completion that shows all AMOs were fully trained within 3 months of assignment. d) Wing/ Region will provide evidence showing all AMOs have completed or are enrolled and actively pursuing completion of the AMO Specialty Track if available. e) Wing/Region will provide evidence showing all assigned aircrew members have been briefed and understand all provisions of this regulation. f) Wing/Region will provide evidence showing all assigned aircrew members have completed been briefed and understand all AMRAD training.

a) (Discrepancy): [xx] (C4 Question 07) Wing/Region failed to provide evidence of having a maintenance management program that allows the full implementation of this regulation IAW CAPR 130-2 para 2.2 b) (Discrepancy): [xx] (C4 Question 7) Wing/Region failed to provide evidence of having a comprehensive aircraft maintenance officer training plan based on CAPP 130-3, CAP Aircraft Maintenance Officer Guide. c) (Discrepancy): [xx] (C4 Ouestion 7) Region/Wing failed to provide evidence of AMO training completion within 3 months of assignment. d) (Discrepancy): [xx] (C4 Question 7) Wing/Region failed to provide evidence showing all AMOs have completed or are enrolled and actively pursuing completion of the AMO Specialty Track if available. e) (Discrepancy): [xx] (C4 Question 7) Wing/Region failed to provide evidence showing Discrepancy Tracking System all assigned aircrew members have (DTS). e) Attach evidence provisions of this regulation. f) (Discrepancy): [xx](C4 Question 7) Wing/Region failed to provide evidence showing all assigned aircrew members have completed AMRAD training.

a) Attach a copy of the updated maintenance management program contained in an approved Wing/Region supplement to CAPR 130-2 to the discrepancy in the Discrepancy Tracking System (DTS). b) Attach a copy of a comprehensive aircraft maintenance officer training plan based on CAPP 1303, CAP Aircraft Maintenance Officer Guide to the discrepancy in the Discrepancy Tracking System (DTS). c) Attach a copy of AMO training completion for all identified AMOs to the discrepancy in the Discrepancy Tracking System. d) Attach a copy of AMO completion or enrollment for all AMOs identified as not be complete or enrolled during the inspection to the discrepancy in the showing all assigned aircrew members identified during the inspection as not having been briefed and understanding these provisions has been briefed and understands all provisions of this regulation to the discrepancy in the

Discrepancy Tracking System (DTS). f) Attach evidence showing all assigned aircrew members identified during the inspection as not having completed AMRAD training have completed AMRAD training to the discrepancy in the Discrepancy Tracking System.
